Question 30

Primary 3 English » Primary 3 English (Term 4)

1 pt

Section H: Comprehension (8 marks)

Read the passage carefully and answer the questions that follow.

Jenny was cycling around the park on her new bicycle. Her parents had given it to her as a birthday present.

After a while, she parked it outside her house and went inside to take a bath. When she returned, to her horror, she saw her neighbour, Melvin, riding on it. Melvin started making funny faces at Jenny. 5

Jenny was furious. "Give it back to me now!" she screamed as she stomped towards Melvin. Melvin smiled cheekily at her and said, "Does this belong to you? I don't see your name written on it!" He did not want to return her bicycle as she had not allowed him to join in a game of hide-and-seek the week before. He was sore about it. 10

Jenny rushed forward and pushed Melvin off the bicycle with so much force that he tumbled onto the ground.

Instantly, Melvin started wailing loudly. Melvin's mother came out of their house and helped her son to his feet as Jenny looked on angrily. Melvin accused Jenny of pushing him off the bicycle. Melvin's mother turned to Jenny and reprimanded her. Jenny broke into tears. 15

Just then, Jenny's mother appeared. After hearing Jenny's account, Jenny's mother asked her to apologise to Melvin and to promise not to push anyone in anger again. Melvin's mother was embarrassed upon hearing this and apologised to Jenny for scolding her earlier before checking all the facts. She then asked Melvin to apologise to Jenny for riding on her bicycle without her permission. 20

3

What did Jenny receive on her birthday?

Accepted answers:

- ✓ bicycle
- ✓ a bicycle

Question 38

Primary 3 English » Primary 3 English (Term 4)

0 pts

Section I - Comprehension (4 x 2 m)

Ahmad loved to help out at his parents' hawker stall at the market. He was happy to help his parents as the stall was always very crowded and his parents were very busy serving the customers. They were grateful for his help but only allowed him to help out after he had finished his homework.

Ahmad's job was to deliver food to the customers and collect money for the food from them. He found that collecting money had helped him with his Mathematics and he was able to calculate the change mentally without using pen and paper.

Their hawker stall had originally belonged to Ahmad's grandparents who sold noodles seven days a week. There was always a long queue at the stall which was known for its delicious and affordable noodles. Ahmad's parents continued with the family business after his grandparents passed away. The stall remained popular as they continued to use the same secret recipe created by his grandfather.

Customers would usually place their orders with Ahmad's mother and his father would prepare the food. Once the noodles were cooked, Ahmad would bring the plates of food to the tables where the customers sat. His mother always reminded Ahmad to bring some coins with him before leaving the stall to serve the customers. The customers were happy with Ahmad's service and often praised him for being a helpful son.

Why were Ahmad's parents grateful for his help at the stall?

Question Type: Essay
