Primary 3 English » Primary 3 English (Term 4)

1 pt

SECTION G: COMPREHENSION (8 x 1 mark)

Read the passage below and answer questions.

"How much are those puppies?" a little boy asked the owner of a pet store.

The store owner replied, "\$30."

"I have \$2. Could I please look at them?" the little boy asked.

The store owner smiled at the boy and then, he whistled. Out of their kennels from the back of the store came five balls of fur. **They** were so tiny. One puppy was limping far behind the other four and tripping as it made its way down the aisle.

Immediately the little boy asked, "What's wrong with that little dog?"

The store owner explained that it was born with one limping leg. It would always limp and it was not able to walk or run like the other dogs.

"That is the puppy that I want to buy," the little boy exclaimed.

The store owner said, "If you really want it, I'll give it to you."

The little boy got upset. He looked straight into the store owner's eyes and said, "I don't want you to give it to me. That little dog is worth every bit as much as the other dogs. In fact, I'll give you \$2 now, and 50 cents a month until I've paid the full price for it."

The store owner's eyes widened when the little boy limped towards him. The little boy then looked up at the store owner and softly said, "I don't run or walk so well myself, and the little puppy will need someone who understands."

5

10

15

The store owner whistled to _____.

- A) make a tune
- ✓ B) call the puppies out of the kennel
- C) reject the little boy's request to see the puppies
- D) tease the little boy for not having enough money

Question 33

Primary 3 English » Primary 3 English (Term 4)

0 pts

SECTION H: COMPREHENSION

Read the passage below and answer questions.

This section is designed for extended answers that parent/ teacher will have to assign and guide child to attempt after the test has been completed.

Grading: This question type is not graded on this system and will not affect the final score as it was designed in such a way that it requires manual assistance.

People have become more aware of the harm that plastic straws are causing the environment. More than 500 million plastic straws are used in United States each day. Too small to recycle, they usually end up in the sea. **There**, they choke sea creatures, clog coral reefs, and eventually break down into tiny parts and get eaten by fish.

Many people around the world understand the strong need to save the environment. More effort is being put in by many countries to reduce the use of plastic straws. In February 2018, the Queen of England eliminated plastic straws in all the royal palaces. The royal family also pledged to reduce the usage of single-use plastics such as cups, plates, and utensils at royal functions.

Many companies have joined the fight to do away with plastic straws. The fast food restaurant in the United Kingdom, McDonald's Corporation, has switched to using paper straws and will only provide them upon customers' request.

Another restaurant named Pizza Express was also spurred to make the change after receiving a letter from their five-year-old customer, Ava. Ava was sad when she read that sea animals were being harmed by the discarded straws and decided to do something. She wrote in to Pizza Express and requested it to stop using plastic straws.

Seeing the approach of McDonald's Corporation and Pizza Express, Marriot Hotel has decided to follow suit and announced that they would ban straws and stop giving out plastic bottles of shampoo and soap to their hotel guests by the end of the month. With so many people around the world helping to reduce the use of straws, totally giving up plastic straws would one day be a possible scenario.

Adapted from *Saving The Earth, One Straw At a Time* by Ariel Kim published by <https://www.doqonews.com/2018/5/20/saving-the-earth-one-straw-at-a-time>

According to the passage, more than 500 million straws are used _____.

- ✓ A) daily
- B) weekly
- C) monthly
- D) annually
