Section C: Comprehension 1 [10 marks]

A new litter of otter pups has been spotted frolicking with the Bishan otter family. At least six pups have been spotted, bringing the total number of members in the famous Bishan family to sixteen, veteran otter watcher, Jeffery Teo, told The Straits Times.

Richard Lee took photographs of the new pups and he posted them on Facebook. He said that he saw seven new pups but one was believed to have died since.

With the main objective of providing a better understanding of the otters, otter community page, OtterWatch, launches talks to help the public learn about the otters and their living environment. It also discusses how the public has responded to these mammals as their population increases.

Online stories of the otters have drawn many comments from readers who have expressed concern at the growth of the population which has grown up to more than sixty now, as told by National University of Singapore biology lecturer, N. Sivasothi, who heads OtterWatch. However, he stressed that the growth of the otter population depends on the availability of food and competition for food.

"Pups are lost during movement between locations, individuals are killed by traffic and entanglement, others disperse in search-of new territories and mates," he said. He further added, "Reduced prey availability due to rising population will limit litter size and growth, - which is why otters, like other carnivores, defend their territories against other otter families."

Mr Sivasothi noted how the Marina Bay otter family has lost its battle for territory to the Bishan otter family. They are now being pushed beyond their territory and losing at least two pups in this territorial battle.

Which word in paragraph 1 tells us that the pups were playing in a cheerful and lively way?

Section G: Comprehension 2 [10 marks]

Head chef Benson, is renowned for his culinary skills. His innovative dishes include Masai Pasta and Wilderness Chocolate Cake. A self-taught chef, Benson's story is an inspiring one of someone who reads cookbooks to follow his passion of becoming a professional chef.

Although Benson grew up in Koiyaki town where free education was provided, he was unable to pursue further studies after completing his primary school education. When Benson's father fell very ill, his family used up all their money to pay for his medical bills. Hence, being the eldest child in the family, he had to take up the responsibility of supporting his family.

To take care of the needs of his family and siblings, Benson got a job as a security guard at Wilderness Camp. Although he worked as a guard, he wanted to pursue his love for cooking. During his free time, he would read through a cookbook titled "Kitchen Stories" that he carried around the camp.

Benson's interest was obvious enough and it prompted Annete, a former camp manager, to ask him why he kept reading the same book. When Benson shared his love for cooking, Annete decided to help Benson by asking him to help out in the kitchen.

Starting off in the kitchen as a helper was a turning point for Benson. Though things were difficult at first, he did not see failure as a barrier to success. He was always learning from his mistakes. Thus, he rose through the ranks to become a head chef at Basecamp.

Name one of Chef Benson's creative dish.
